

HANDY TERMINAL

**BHT-1200** 

SERIES

# Increase business efficiency. Longer operation time and overwhelming scanning speed!

Easy to operate

### Easy to operate unit improves your business efficiency

Simple to operate with only one hand, even with just your thumbs

Keys are placed and arranged to enable one-handed operation

High capacity Lithium battery

Operates up to 34 hours without re-charging.

**Operating System** 

Windows® embedded CE 6.o R3

**Keyboard-12 functional keys** 

Set up frequently used functions with sufficient numbers of functional keys. You can use the product in a dark place, thanks to the key back light.

5.0 megapixel digital camera
Take a photo of defective products while inspecting

Double-functional terminal with 5.0 megapixel digital camera function. Convenient auto-focus and built-in mini size light, displayed on a HVGA colour screen.

### The stability and speed required for business-use today

### **Fast wireless communication**

Support IEEE802.11b/g/n. High-speed communication

# Prevent unauthorized access and wiretapping

Embedded with WPA/WPA2, highly reliable security technique, together with WEP

### Decoding performance

## Overwhelming speed! Powerful on decoding even over long distances

### 400 scans in one second

Decoding speed is almost twice as fast compared to conventional laser scanners. The BHT-1200 decodes even scratched or damaged codes.

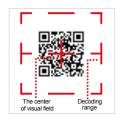

### Reads the code from a long distance

Read not only codes nearby, but also codes placed about a meter away.

# Improved operability with a laser beam to indicate the decoding range (2D only)

Aggressive scanning performance.

### **Expansion Memory**

Back up RAM data in MicroSDHC (up to 32 GB)

### **Environment**

Usable in a cold storage -20°C and up to +50°C.

### Data backup

Flash ROM with high-capacity of 2 GB, use it without worries about the capacity

### **Durability**

Cylindrical, jacket-structure, protecting the board from impact, dust and water IP54.

### Global support system

### Globally deployable

# Available in more than 40 countries across the world! Total support system

Full range of service from Sales to maintenance. Approved authorised repair and service centers.

- 1: The liquid panel is made with high-precision technology. Though the number of pixels available is 99.99%, please understand that there is 0.01% chance of the display being scrambled and turned off.
- 2: Network range and transmission speed are logical variables and accordingly, these may vary depending on the actual environmental condition.

  3: In the case of decode:wireless communication:screen update:stand by = 1:1:1:20 and LCD back light is Low, turn ON the wireless only when connected to the network and turn OFF at other times. The operating time is for reference only at room temperature and it may vary depending on working conditions.
- 4: The temperature rises from 0 to 40 °C while charging. 5: The value when using the standard battery

### **Software**

Software Development Kit (SDK) for BHT Windows  $\ \, \mbox{$\mathbb{R}$}$  CE  $^1$  Keyboard interface software [kbifCE]  $^2$ 

- This software is available from the site free of charge to those customers who have purchased BHT Windows
  This software is installed on the system when delivered

Items with this mark are available from the company's homepage (Qbdirect) free of charge
